

Product Retirement Update

Issue/Date:	April 1st, 2021	Bulletin Number:	AQ04012021
Subject:	Product Retirement Update	Product Line:	DW, SP, SL10A, RBE, CSL, SCD, UVK
Topic:	Product Retirement Update: Parts Availability		

Dear Customers,

Due to the evolution of UV technology and the commercialization of newer Aquafine UV systems, in 2016 we stopped production and sale of legacy Aquafine systems. While we remain committed to supporting customers through their transition to new Aquafine systems, we will be reducing the parts and service available on the models below.

<ul style="list-style-type: none">• DW series• SP series• SL10A series*	<ul style="list-style-type: none">• RBE series• CSL series*• SCD Series (600,700,1000,1200)*• UVK (1,2,3,4 only)
---	---

*Note: Does not include CSL Plus, SCD-H, SCD-HX, SL1, MP2, UVK X0000 Series

Important Date: May 1, 2021

As of May 1, 2021, only consumables such as lamps, sleeves, ballasts, wiper seals, fluids and some sensors will continue to be stocked and available.

Off-the-shelf items such as **hardware and electrical components** will no longer be supported; covers, brackets, end plates, communication boards, retrofit kits and other custom items will no longer be produced. Between now and May 1st, a limited quantity of these items is available for sale while supplies last.

For a detailed list of part numbers that will remain active, please visit our website at <https://www.trojantechnologies.com/en/products/industrial> or contact our local Aquafine sales representative.

Upgrade Your System

Which replacement Aquafine UV system is right for you? It depends on your current configuration and the features you need and value most. Aquafine offers OptiVenn® and Avant® systems which incorporate technological advancements that help to reduce the total cost of ownership, lower power consumption, and simplify operation and maintenance.

Support

We're here to help. Our experienced team of UV experts will work with you to review current and future needs and discuss the best options for the customers.

Simply **contact your local Aquafine sales representative** at seasia@trojantechnologies.com
